

Edwin Garcés Saucedo

SOFTWARE ENGINEER | MOBILE DEVELOPER

github.com/edwingarces [+52 5611196825](tel:+525611196825) edwingarcessaucedo@gmail.com

Professional Summary

Experienced **Mobile and Frontend Developer** with 10+ years of expertise in building web and mobile applications, specializing in **React Native** and **React.js**. Proven ability to deliver high-quality, scalable, and user-friendly solutions for Android and iOS platforms. Adept at collaborating with multidisciplinary teams, improving app performance, and implementing user-focused functionalities. Passionate about leveraging technology to optimize processes and enhance user experiences.

Professional Experience

Mobile Developer

Digital@FEMSA | Mexico City, Mexico

January 2023 – Present

- Developed and implemented new features in the mobile application, optimizing performance and enhancing the user experience for both Android and iOS platforms.
- Debugged and resolved critical application issues, improving app stability and reliability.
- Collaborated with cross-functional teams to prioritize and deliver key functionalities aligned with business objectives.

Sr. Full Stack Developer Consultant

TRATO | Mexico City, Mexico

November 2022 – July 2023

- Designed and developed mobile apps using **React Native**, delivering new functionalities and improving app performance.
- Deployed applications to the **Google Play Store** and **App Store**, achieving significant user adoption.
- Managed version control using **Git** and **GitHub**, ensuring clean and maintainable codebases.

Sr. Frontend Developer

ION Financiera | Mexico City, Mexico

May 2021 – June 2022

- Led technical development across multiple teams, implementing workflow standards and ensuring adherence to best practices.
- Built a comprehensive **Design System** to standardize UI components across projects, streamlining the development process.
- Developed responsive web interfaces using **React.js**, **TypeScript**, and **Emotion CSS**.

Mobile Developer

ClickMagick | Texas, USA

January 2022 – October 2022

- Developed mobile applications for Android and iOS platforms using **React Native**, integrating API calls for dynamic content.
- Published apps to the **Google Play Store** and **App Store**.
- Ensured seamless version control and collaboration using **Git** and **GitHub**.

Frontend Developer

Scotiabank | Mexico City, Mexico

November 2020 – May 2021

- Designed and developed user interfaces for banking web applications using **React.js**, **Node.js**, **JavaScript**, and **TypeScript**.
- Enhanced user experiences with optimized performance and responsive designs.

Sr. Developer

MAS Servicios | Mexico City, Mexico

September 2019 – November 2020

- Developed frontend applications using **React.js** and backend solutions with **Laravel** and **Express.js**.
- Digitized processes and created new applications for the company and its partners.
- Improved existing applications, increasing efficiency and user satisfaction.

Full Stack Developer

Uno TV/GoViral | Mexico City, Mexico

June 2019 – August 2019

- Developed full-stack applications using **Laravel** and **React.js**, with a focus on LAMP architecture.
- Designed databases and user interfaces to support scalable and maintainable solutions.
- Implemented web scraping tools using **Node.js** and **Puppeteer.js** to automate content generation.

Full Stack Developer

CPA Vision | Mexico City, Mexico

September 2018 – May 2019

- Developed backend services with **PHP** and **Laravel**, complemented by frontend interfaces using **HTML5**, **CSS3**, **JavaScript**, and **jQuery**.

- Automated tasks by creating bots using **Selenium**, **AutoIT**, and **PHP**.

Full Stack Developer

Starnet | Cholula, Puebla

March 2018 – September 2018

- Built and maintained landing pages using **HTML5**, **CSS3**, **JavaScript**, **Ajax**, and **jQuery**.
- Developed e-commerce solutions with **PrestaShop** and **PHP**.
- Managed server deployments and ensured code integrity through version control systems like **Git** and **Bitbucket**.

Web Developer

Loomtek | Toluca, Mexico

July 2015 – August 2017

- Designed and implemented databases using **MySQL** to support inventory and accounting systems.
- Developed web applications using **PHP**, **HTML5**, **CSS3**, and **JavaScript**.
- Provided maintenance and support for legacy applications, fixing bugs and improving functionality.

Developer

Atah | Apizaco, Tlaxcala

December 2014 – January 2015

- Developed inventory and accounting systems using **C#** and **MySQL**.
- Designed user interfaces and ensured database reliability to support operational needs.
